LUCKY FLOOR — FEIJEN SP

The unique floor where everything is thought through.

- Simple and easy to use
- Handy and light weight
- With an incredible strength
- Durable by endless recycling
- Barely delivery time
- 40m² floor is placed in half an hour

Any power cables, data cables, compressed air or the waterpipe will find their way underneath the Lucky Floor. There are no tools and adjustments required, the elements are simply screwed together and linked by the ingenious coupling piece.

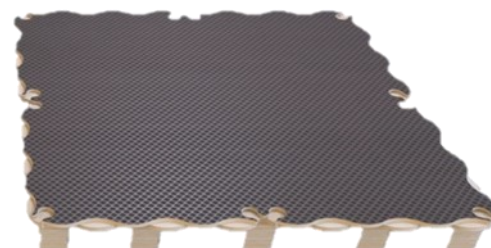

The Lucky Floor has barely delivery time and 40m² is placed in half an hour. The Lucky Floor is available in two birch versions. In a dark brown slip resistant finish and in a natural look. The Lucky Floor is available in two convenient heights of 40 mm and 70 mm. The Lucky Floor can easily be entered, even with heavy machines.

With our corner and closing elements in the sizes 1000x1000 mm and 500x500 mm, there are no restrictions in floor dimensions.

Designs:

Birch natural

Dark Brown Anti-slip Surface Finish
